

I am a Vacaville resident who listens to the radio station K-LOVE (91.5 FM) on a daily basis. It really encourages me and keeps me grounded during the hustle and bustle of life. If K-LOVE were to be displaced by an LPFM broadcaster providing other programming I would be devastated. I know this radio station has stopped some people from committing suicide and has given them hope when they had none. We need more life changing radio stations like K-LOVE in our community NOT LESS. Please stop the LPFM from replacing my favorite radio station and daily encouragement. I feel like God has used this radio station to remind me of His love and ultimate control over my life. Please don't displace K-LOVE!
